# October Project Check In Rubric

Complete the name and project fields below. After your check-in, record your names, project title, and check-in date. Total possible score: 30 points.

Student name(s): _____

Project title: _____

Check-in date: _____

## 1 Data Visualizations  15 points

| Criteria | Possible |
|---|---|
| At least one relevant visualization is presented. | 5 |
| Visualizations are clear, readable, and well labeled. | 5 |
| Visualizations support or challenge an important project claim. | 5 |
| **Section total** | **15** |

- Visualizations should be meaningful and of final quality.
- Be prepared to explain how each visualization is relevant and how it supports or disproves your project hypotheses.
- Be prepared to defend your visualization decisions: Why this chart type rather than a scatter plot, box plot, pie chart, or histogram? Why these quantities? Could the visualization be misleading?

## 2 Data Processing  15 points

| Criteria | Possible |
|---|---|
| Data sources and collection methods are clearly identified. | 5 |
| Data cleaning steps are close to finalized. | 5 |
| Reasoning for data processing decisions is well explained. | 5 |
| **Section total** | **15** |

- Data collection should be mostly finalized at this point.
- Be prepared to explain why you selected your features and to justify all data collection, cleaning, and processing decisions.
